Pro Dreams

COMBINE

The Pro Dreams Combine was created to bridge the gap between overlooked women's basketball players and professional opportunities.

What began as a combine has evolved into a powerful community and movement centered on access, empowerment, and opportunity.

We provide athletes with direct access to scouts, agents, and general managers, delivering the visibility and validation necessary to secure overseas contracts.

Driven by a vision to become the premier global pathway for aspiring women professionals, Pro Dreams continues to broaden its reach and deepen its impact, expanding resources that support athletes both on and off the court.

COMBINE

We welcome all athletes-
from NCAA Division I, II, &
III, NAIA, and NJCAA, along
with semi-professional
players and individuals
who have prior
international playing
experience.

20+

players signed to
international
contracts

LIVE Stream
broadcasted in

10+

countries, with viewers
around the world

Pro Dreams

FOUNDER

Pro Dreams was founded in 2022 by Briana Williams, a former professional basketball player with six years of overseas experience from 2016 to 2022.

Briana competed internationally in Montenegro, the Czech Republic, Qatar, Germany, and Kosovo, gaining firsthand insight into the global professional basketball landscape.

Briana earned her degree in Sports Business Management from Mercer University and has since expanded her expertise as a Certified Sports Performance Coach (NASM, PES), Certified Sports Nutrition Coach (NASM, CSNC), and experienced event curator. She currently serves as an Assistant Coach in Saudi Arabia, specializing in player development for both the women's professional team and the 18U girls program.

The idea for the Pro Dreams Women's Overseas Combine emerged after Briana repeatedly encountered former collegiate players who still had a passion for the game and the ability to compete professionally, yet lacked clear guidance, access, or connections to pursue overseas opportunities.

Recognizing this gap, Briana set out to change the narrative.
